DUCATI 

D16RR Accessories overview

96451908B - RED

96452608B – TEAM VERSION

Complete exhaust system made entirely in titanium. Layout is similar to the World Championship-winning Ducati GP7. This kit provides a boost of power and enhanced light weight (over 50% saving) also thanks to the specially mapped ECU and high-performance air filter.

circa €7.500,00 (VK inkl. Mwst)

D16RR Accessories overview

Carbon headlight fairing developed for use on the race track in collaboration with the aerodynamics specialists from the Ducati Corse staff. The top coat matches the other fairing components to enhance the sporty character of the bike.

circa €1.500,00 (VK inkl. Mwst)

D16RR Accessories overview

96992808B

Carbon rear mudguard wrapping up a wide tyre section to protect the rear suspension and bike rear end from debris and impurities.

circa €375,00 (VK inkl. Mwst)

D16RR Accessories overview

96979707B

Light-alloy fuel filler plug with carbon frame.

cirka €175,00 (VK inkl. Mwst)

965162AAA = 220V

96519107B = 110V

Set of Ducati Performance tyre warmers.

cirka €670,00 (VK inkl. Mwst)

D16RR Accessories overview

96630208B

Titanium footpegs and controls kit. Sturdiness and light weight as the keys to ultimate performance. This is the development concept underlying these all-titanium footpegs with four setting positions designed to adjust riding position to suit rider's preferences and achieve better riding performance. Articulated brake and gear shift footpegs and levers minimise the risk of breakage in the event of a low slide.

cirka €4.500,00 (VK inkl. Mwst)

D16RR Accessories overview

The two bolt kits for engine (83-piece package) and frame (49-piece package) are designed to replace steel bolts and achieve significant weight reduction while enhancing reliability and safety.

96629608B - Engine kit

cirka €1.250,00 (VK inkl. Mwst)

96629508B - Frame kit

cirka €1.250,00 (VK inkl. Mwst)

D16RR Accessories overview

96988008B

Double-bubble Plexiglas windshield offering great wind protection at high speeds and excellent drag coefficient.

cirka €195,00 (VK inkl. Mwst)

D16RR Accessories overview

96851108B

This kit includes two rear chain sprockets with 520 pitch and T44 and T45 toothings made from Erganium, a material that combines sturdiness and light weight. A size-520 case-hardening steel front chain sprocket with special lightening holes for T15 and racing GP7 chain are also supplied.

cirka €550,00 (VK inkl. Mwst)

D16RR Accessories overview

96765808B

Aluminium box-type front stand. Very handy for front wheel removal and brake servicing, it complements the rear paddock stand supplied with the bike to make your own set of stands for use in the pit stall or on the pit lane.

circa €495,00 (VK inkl. Mwst)
